Learning Network Foundation (LNF) was established as a non-profit, tax exempt school in 1970. LNF is a community based organization that provides counseling expertise to work with at-risk youth in the USVI. We provided training and technical service activities to the USVI Serious and Violent Offender (SVORI) federally funded initiative, partnered with Calypso, Inc to provide training to 58 at-risk youth ages 3-18 from lower income households. The youth are taught the culture of the USVI in order to help them create a connection to their heritage.

We applaud St. John's Episcopal Church Restoration request for funding to restore the bell tower on the property. This is an historic restoration and is important to the preservation of the cultural heritage of St. Croix.

Regards,

Carole Soule
